180 Life Sciences Corp. (the "Company") is providing an update on its previously announced anticipated preliminary discussion (Type C) meeting with the U.S. Food and Drug Administration (FDA) prior to a proposed pre-investigational new drug application (PIND) meeting for its Dupuytren's disease treatment.

Specifically, the FDA recently provided notice to the Company that the FDA had declined to grant this meeting with the Company regarding its preliminary discussion, Type C meeting for its treatment of early stage Dupuytren's disease, until more information about the manufacturer of the product is provided.

The Company remains committed to the development of its early stage Dupuytren's disease treatment and upon advice of its regulatory consultants plans to further correspond with the FDA with the goal of having a Type C meeting with the FDA; provided no assurances can be given that such meeting will be agreed to by the FDA or the timing of such meeting.
